Friday 16th May

9:00 — 12:00 **Excursion Lednicko – Valtický areál**

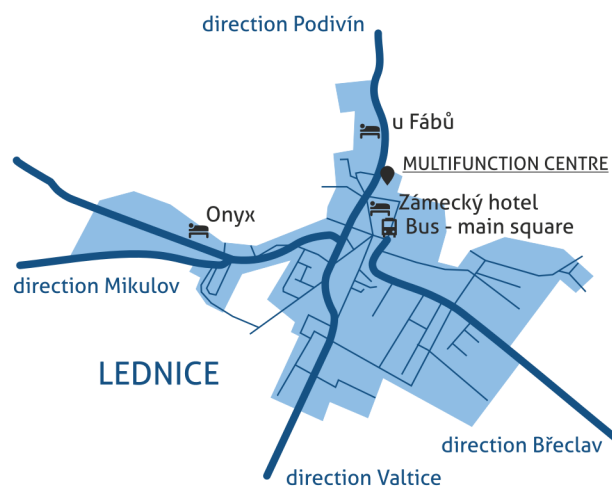

The aim of SONDAR project is to build a structural network, leading to growing responsibility for our soil. Connections in the network should be between science and experience, administration and using of soil, education and art. In traditional co-operation with European Land & Soil Alliance ELSA we offer results and experience of the SONDAR CZ-AT project in the fields of soil awareness and soil protection, with special focus on soil erosion.

Location

Multifunction centre Lednice Château
 Zámecké náměstí 67
 Lednice

www.mczl.cz

SONDAR CZ-AT & European Land and Soil Alliance, ELSA e.V.

International Conference

SOIL QUALITY - SOIL EROSION
 SOIL SEALING - SOIL AWARENESS

Lednice Castle's multi-purpose centre is located in the Baroque riding hall and stables, part of Lednice's castle building complex. The model restoration of the monument means this 'palace for steeds' has been brought back to life. Today, through its exhibitions and rooms with modern sound systems, it offers space for learning, focusing on designed landscape, landscape management, the history of riding schools and the Lower Moravia Biosphere Reserve.
