Our Region feeds the World

Presentation by

Ronald Gilchrist & Alfred Grand

Each community like an island.

What are our food needs?

Nature's profusion ...

No tractors, ploughing or chemicals – recycle ALL organic wastes

Rapid HotBox Composting

Big Hanna Food Composter processes catering waste from schools

small WormBox gives enough fertiliser for a large Community Garden

Humus Box [worm café]

gives a self – fertilising raised bed

Delicious and nutritious vegetables impressive production in a small area

Community GYO gardening ... easy by design tunnel...store...potting shed...office

9m x 9m Neighbourhood Garden

Women's empowerment group grow

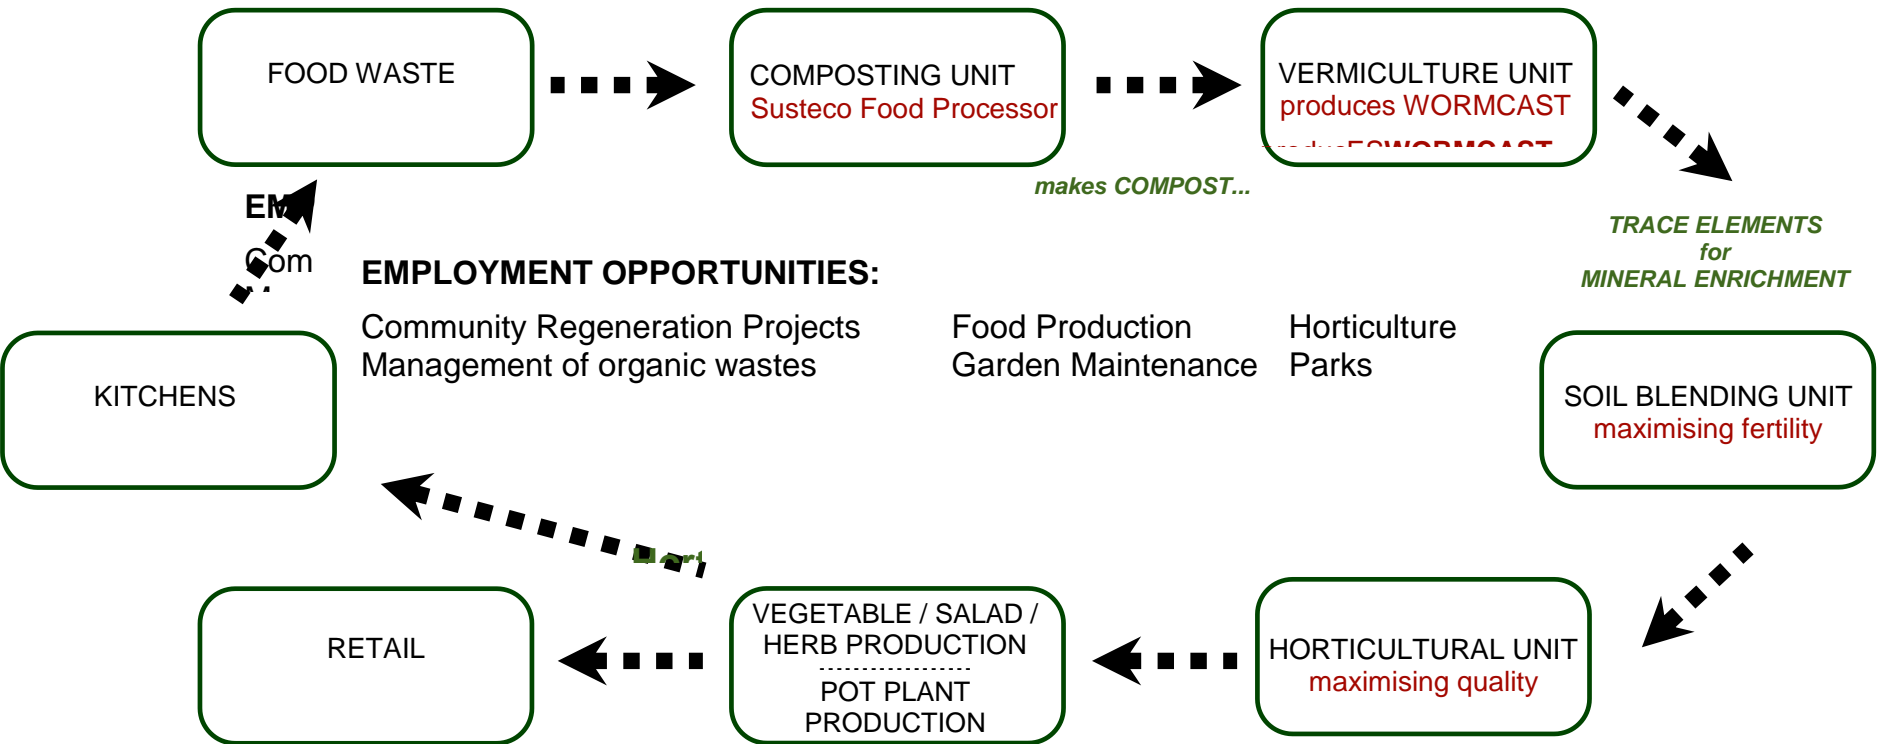

Growing in the School Yard

GREENWAY

Horticultural Training Programme

EMPLOYMENT OPPORTUNITIES:

Community Regeneration Projects
Management of organic wastes

Food Production
Garden Maintenance

Horticulture
Parks

BENEFITS:

Purposeful work
Health benefits-fresher food
Education/learning possibilities
Enterprise opportunity

Garden Therapy
Waste reduction
Sustainable Project
Regenerating Soil

Horticultural Knowledge & Skills
Costs reduction - "free food" produced
Project Management Skills
Regenerating Communities
